

Swati Kulkarni

Biotech Research Scientist

Pune, Maharashtra | +91 98220 67890 | swati.kulkarni@email.com | [linkedin.com/in/swatikulkarni](https://www.linkedin.com/in/swatikulkarni)

PROFESSIONAL SUMMARY

Research Scientist with 7 years of experience in molecular biology and drug discovery within the biotech industry. Skilled in assay development, experimental design, and cross-functional collaboration on therapeutic programs.

PROFESSIONAL EXPERIENCE

Senior Research Scientist — Serum Institute of India

2019 - Present

- Lead assay development for early-stage vaccine research programs, supporting 3 lead candidate nominations.
- Design and execute high-throughput screening experiments, generating data for 50,000+ compound libraries.
- Co-author 4 peer-reviewed publications and 2 patent filings related to novel target identification.
- Mentor 2 research associates on laboratory technique and experimental design.

Research Associate — Biocon Limited

2016 - 2019

- Performed molecular cloning, protein expression, and cell-based assays supporting preclinical research.
- Maintained detailed laboratory documentation in compliance with GLP standards.

EDUCATION

Ph.D. in Molecular Biology — National Centre for Biological Sciences

2011 - 2016

B.Sc. in Biochemistry — University of Pune

2007 - 2011

SKILLS

Assay Development • High-Throughput Screening • Molecular Cloning • Cell Culture • GLP Compliance • Data Analysis

CERTIFICATIONS

- Good Laboratory Practice (GLP) Certification
